Commissioner for Patents

***Response to Amendment***

The reply filed on January 8, 2004 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): As per MPEP 714.02, in order to be responsive, arguments must include the following : "The reply must present arguments pointing out the specific distinctions believed to render the claims, **including any newly presented claims** (emphasis added), patentable over any applied references", and further "a general allegation that the claims define a patentable invention without specifically pointing out how the language of the claims patentably distinguishes them from the references does not comply with the requirements of this section", where new claims 21 and 23 are not discussed with respect to the applied art, and it is also noted that there is no support given for the changes made and where that support exists in the specification which would assist the examiner in ascertaining whether such is new matter or not, especially in the absence of any statement that no new matter was added by the amendment.. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).**
